

MAINSTREAMING

- We offer opportunities for full participation in a wide range of specialist subjects
- Access to a range of adapted facilities including a gymnasium
- Involvement in cultural and sporting activities throughout the Mt Roskill Campus
- School productions

We place emphasis on students' happiness, safety and learning. We work as a team to support students and their families. We believe in listening to parents and caregivers to enable their children to maximise their potential.

All our students share in the corporate school life of Mt Roskill Intermediate School.

MOUNT ROSKILL
INTERMEDIATE SCHOOL

TENNYSON CENTRE
for inclusive education

SPEECH LANGUAGE THERAPY

Our on-site speech language therapist supports students' communication in the classroom through

- improving functional language
- communication devices
- alternative forms of communication
- support in practical social settings

PHYSIOTHERAPY

A physiotherapist is on-site to facilitate improved physical well-being, particularly for students with physical disabilities, through

- individually developed treatment programmes, according to assessed need
- modified physical education programmes
- aquatic physiotherapy
- mobility support

OCCUPATIONAL THERAPY

We provide on-site occupational therapy to enable students to access the curriculum by

- encouraging classroom participation
- promoting the coordination of sensory and motor information
- supporting assistive technology and equipment as needed
- developing skills in daily living
