

Queenstown, New Zealand

An aerial night photograph of Queenstown, New Zealand. The town is illuminated with warm yellow and orange lights, contrasting with the cool blue tones of the twilight sky and the dark green of the surrounding forest. In the background, the majestic snow-capped peaks of the Southern Alps rise above the town. A large, calm lake, Lake Wakatipu, is visible, reflecting the ambient light. The overall scene is a picturesque blend of natural beauty and human settlement.
